

LAWLESS

1. IGNORING :

Let us consider just ONE of the list below – IGNORING harm. **Despite the horrendous number of injuries and disabilities caused by the vaccine (1.3 million disabilities in the USA alone), the governments knew this but pushed on relentlessly with the vaccination of babies !**

It's one thing to claim that they did not know about the harms during the first weeks of rollout. But to carry on relentlessly AFTER thousands had been killed or injured shows intent to harm.

2. HIDING :

BUT, they not only ignored harm, **they actively HID harm with censorship. Hundreds of thousands of personal testimonies of harm were deleted. They also threatened doctors for even warning people, and for using safe alternatives..**

3. DECEPTION :

BUT, they not only ignored and hid harm, they put out fake information, which included

- a. **Using fake PCR to inflate cases**
- b. **Attributing any death within 30 days of a positive PCR**
- c. Debunking safe alternatives
- d. Debunking natural immunity
- e. Labelling everyone as a carrier

4. COERCING :

They also violated the law by COERCING people into taking the vaccine. They used **fear, threats, sanctions, quarantine/isolation, fines and bribes to coerce compliance**. This was all totally illegal, since it is against the law to use coercion to force people into taking a medication.

And all this does not even touch upon the mountain of evidence of pre-planning in the form of patents, contracts and preparation exercises.

It is reasonable to conclude that the behavior of governments became lawless and highly immoral. It is not possible to plead stupidity or ignorance, since the dangers were very apparent. This was deliberate intent to harm.

And that intent STILL PERSISTS, since the same people are still in power, and none have been brought to justice. Currently they are actively changing laws to further shut down free speech and re-impose sanctions with the next "pandemic"
