

Survival tips from God ?

By Craig Paardekooper

STORAGE OF FOOD

Here are the instructions that God gave to Ezekiel for surviving a long (430 day) siege. We can use this information to survive food shortages arising from CBDC restrictions (not being able to buy or sell), or from famines resulting from shortages or from containment.

“Take wheat and barley, beans and lentils, millet and spelt; put them in a storage jar and use them to make bread for yourself. You are to eat it during the 390 days you lie on your side. 10 Weigh out twenty shekels[b] of food to eat each day and eat it at set times. 11 Also measure out a sixth of a hin[c] of water and drink it at set times. 12 Eat the food as you would a loaf of barley bread; bake it in the sight of the people, using human excrement for fuel.” 13 The Lord said, “In this way the people of Israel will eat defiled food among the nations where I will drive them.” Ezekiel 4 v 9

- A mixture of wheat, barley, beans, lentils, millet and spelt
- Cooked (as bread)
- Twenty Shekels is 230 grams of food per day eaten at set times
- A sixth of a hin is 0.6 litres water per day eaten at set times
- He used manure for fuel.

All of these grains can be stored for a sufficiently long time in storage jars or other similar containers

The grains listed were to keep Ezekiel alive for 430 days. 1kg of food will last 4 days, so 107 kg will last 430 days. I think that 230g will be quite filling, though I am not sure about the nutritional value of the grains listed.

The reason for this storage and rationing of food is to represent the coming shortages -

16 He then said to me: “Son of man, I am about to cut off the food supply in Jerusalem. The people will eat rationed food in anxiety and drink rationed water in despair, 17 for food and water will be scarce. They will be appalled at the sight of each other and will waste away because of[d] their sin.

The time period of 430 days may be important as a critical survival period. It occurs again in Revelations as 1290 days = 3 x 430 days. To be safe, enough for 1290 days is required - = 300kg . This could be stored in 50kg barrels x 6 (6 small barrels - that's all it takes to secure a life).

Storage of food will be important if CBDC restrictions prevent you from buying or selling essential supplies. See : CBDC : <https://t.me/bookofrevelations/264>.

It is important to remember that you only have to survive for 1290 days.

CITIES AS CONTAINMENT ZONES

Both the apocalypse of 70 A.D. and that of 585 B.C. involved a siege – starving the people by preventing access to food and water, whilst releasing plague amongst them. Any who tried to escape the cities were killed by the sword. In both cases those who survived were those who fled the city before the containment began.

Ezekiel describes the 585 B.C. siege it as follows -

*Outside is the sword; inside are plague and famine.
Those in the country will die by the sword;
Those in the city will be devoured by famine and plague.
16 The fugitives who escape will flee to the mountains.*

A third died from hunger or plague in the cities. Soldiers prevented people leaving. Those who tried to leave were killed. People could only escape before hand - to the wilderness areas. The cities were killing zones.

"I will drive you out of the city and deliver you into the hands of foreigners and inflict punishment on you." .

Foreign security forces - migrant personnel – were assigned the task of preventing escape from the cities.

"They will eat their food in anxiety and drink their water in despair, for their land will be stripped of everything in it because of the violence of all who live there. 20 The inhabited towns will be laid waste and the land will be desolate. Then you will know that I am the Lord."

Gang violence was intense within the cities, and the countryside was desolate..

STEPS FOR CONTAINMENT

If the government uses containment, they are likely to follow these steps -

1. **TRAVEL BOUNDARIES** : Establishment of **travel boundaries** around cities
2. **RELOCATION** of populations from country side into cities
3. **CLEARANCE** of a perimeter around cities – removal of hedges, trees – a no-man's land, to aide surveillance
4. **BARRIERS** : Setting up of barriers, fencing, barbed wire to prevent egress by vehicle or by foot.
5. **MONITORING DEVICES** : Installation of cameras, remote monitoring devices
6. **ARMED TROOPS** : Troops will be moved in to man those boundaries.
7. **TOXIN DEPLOYMENT** : Toxins will be released within the cities to create plagues.
8. **PLAGUE CONTAINMENT** : Troops will be given orders to contain the plague by any means.
9. **UTILITIES** : Shutting off all food and water supplies and electric. Darkness

If you see these things happening, then you should get out of the city before they close the ring of steel. Staying put in the hopes of furthering/ resuming your career or protecting your family will have the opposite effect.

FINDING REFUGE

It is important to establish storage/refuge in advance - with independent water supply outside of cities in order to avoid plague, famine and gangs. Refuge must be remote or hidden – because the countryside will be purged, but not the wilderness areas.

"Therefore say: 'This is what the Sovereign Lord says: Although I sent them far away among the nations and scattered them among the countries, yet for a little while I have been a sanctuary for them in the countries where they have gone.' Ezekiel

In both sieges, God's people found refuge in distant lands before the siege began. The Christians fled to Pella in Transjordan – where they were safe from the holocaust.
