

The End of Days

by Craig Paardekooper

1. Lawlessness

In our time we are witnessing deception, assault and murder on a very wide scale as people are lied to about a pandemic, and then coerced into taking a poison. They are being lied to by every authority – politicians, doctors, teachers, scientists, media and are being denied justice by police and judiciary. Every law has been broken – constitutional law, common law, moral law, employment law, safety law, medical law, doctor's oaths to do no harm, the 10 commandments.

2. One world government

We are all aware that politicians can do bad things for their own ends. But here we are witnessing every government around the globe acting collectively, together with a singular purpose. Its as if all the evil individuals suddenly found a single overriding purpose. The effect is that all the different world governments are acting as if they were governed by a single authority.

3. Mass Die Off

The widespread occurrence of sudden death, the increase in all-cause mortality, the frequent testimonies of intentional vaccine injury, indicate that we are witnessing a mass cull. The Deagel report even forecasts this cull occurring during the years until 2025.

4. Central Control of all buying and selling

The imminent introduction of a world-wide system where-by every financial transaction will be under the control of a central authority, who will be able to determine whether you are allowed to buy or sell.

5. Wheat and the Tares

I am going to add another phenomenon to the list. Namely, the sudden change in character of so many "decent" people, who don't just comply reluctantly with the government out of fear, but enthusiastically endorse the poisoning of innocent people and the cancelling of their rights. The tares aren't just bad people – they appear to have undergone a radical personality change – or certainly a role change.

These phenomena have alarmed so many people over the last two years – the lawlessness of our leaders and regulatory authorities, the shocking death toll – almost every national leader following a single destructive agenda in lockstep.

In the Bible, these 5 phenomena occur together in only **one** place – during the period of the anti-Christ -

- a) **Lawless** : who negates all of God's laws
- b) **Total Authority** : who has control over the entire globe
- c) **Mass Killing** : who brings about a significant drop in population (25%)
- d) **Buying and Selling** : who has control of all financial transactions
- e) **Wheat and Tares** : who is accompanied by a separation of the general population into good and evil

Christ was filled with the Holy Spirit. The Anti-Christ is supposed to be filled with an Evil Spirit, and during his time demonic influence and possession are said to be widespread – leading many to collaborate in evil, and many more to become passive followers of evil – lending it their support...and their lives.

His rule is said to last 3.5 years, and is famously associated with the introduction of total control over all buying and selling...2023.
