

# Death Count in Revelations

## ANTI-CHRIST PERIOD

The Bible states that 25% of the population are killed during the Antichrist Period

**Rev 6 v 8**

Depopulation is by plague, famine, sword and wild animals.

## METEOR JUDGEMENTS

During the subsequent judgements there are plenty of potential causes of death described, but no figures are given on the number killed. Potential Causes of death include –

- Meteor Impact
- Fires
- Hail
- Dust in atmosphere – breathing problems
- Tidal Waves
- Death of Sea Creatures resulting in starvation
- Poisoning of water sources
- Acid rain
- Earthquakes – collapse of cities
- Insect attacks
- Darkness – leading to crop failures – “nuclear winter” - starvation

The poisoning of the water is the only effect that the Bible says caused many deaths. However, no numbers are provided.

## ARMAGEDDON

The Bible says that 33% of the remaining population are killed by the army of the kings of the East. **Rev 9 v 18**

This army is said to number 200 million troops. Revelations tells us that this army is the combined army of all the kings of the earth. **Rev 16 v 13**

A more troubling question is “How could an army of 200 million kill a third of mankind?”. This would require each soldier to kill about 10 people. And the people are spread over the whole globe, so the killing would have to take place in each country rather than in one central place.

It looks as if the military in each country turns against its own population, but then unites for a final battle at Armageddon.

So, after the meteor judgements there is an imposition of military rule in every country. The physical environment is hostile – with fires, acid rain, darkness, lack of water, lack of food, and widespread destruction. This would naturally lead to looting, gang formation and a state of anarchy. The military kill 1 in 3 of the survivors.

## HOW MANY?

**Killed by the Beast** : 25% of our current population of 7.674 billion = 1.9185 billion

These are people killed during the Anti-Christ period. Those killed would be those who refuse to take the mark or worship the Beast – in other words – the free-spirited, and Christians.

The remaining population =  $7.674 - 1.9185 = 5.75$  billion

So during the Anti-Christ period of 3.5 years, 25% of the population are killed, so 3 out of 4 people will survive this stage.

**Killed by the Dragon** : 33% of the remaining population are killed by the armies of the Kings of the East (the Dragon)

33% of 5.75 billion = 1.9185 billion

So the number remaining is  $5.75 - 1.91 = 3.84$  billion

So the Beast and the Dragon each kill the same number of people.

## IN SUMMARY

**Killed by the Godless** = Beast + Dragon : The number killed by the Anti-Christ / Beast, and by the armies of the Kings of the East comes to a total of 50% of the population.

**Killed by God** : The number killed by the meteor judgements is not given in the Bible – it could be anything between 0 and 3 billion. It will probably turn out to be proportional to the atrocities committed by the Godless, since it is meant as a judgement in response to that.

## COMPARISON WITH DEAGEL

Deagel 2019 is a military web site that published expected population reductions by 2025. The total population reduction for all countries by 2025 was found to sum to 800 million below current population level, instead of the expected 340 million growth. So, in other words the population undergoes a total of cull of  $800 + 340$  million = 1140 million = 15%

The Deagel 2017 figures were worse. They would probably push it up to nearer the 25% level.

## GEORGIA GUIDESTONE

This predicted a fall in population to only 500 million. If this is the case, then possible causes are –

- the meteor judgements producing about 3 billion deaths.
- The people becoming infertile as a result of the vaccinations.
